BRIEF CRITERIA ANALYSIS

Twain Dual Language Academy is one of SAISD's most high demand schools. This recommendation will create options for families by adding additional seats to the existing dual language program. It is projected that there will be a total of 765 total students at Twain's two campuses in the 2024 school year.

BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school's principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With Twain merging with Gonzales, more students and families will gain access to:

- Enhanced mental health and social services;
- Early childhood education seats in one of the district's most popular dual language programs; and
- A full-time Communities in Schools (CIS) site coordinator.
